

NIV Audio Bible Dramatized CD Customer Reviews:

very helpful

Rating: 5/5

I have been looking for NIV audio Bible for my Bible reading and English study. All 64CDs are so helpful. If I read the Bible with one CD in one day, I can read whole Bible in two month. Very helpful. Highly recommended! especially for one who like to read the bible and study English.

It's unbelievable

Thank you Zondervan. I can now listen and read the Bible and understand it easily. I never knew there was more to the Bible than what is usually preached in the Church. I will recommend that people should buy the dramatized audio Bible and listen to it. I listen to the Bible all the time. All I have to do is to put on and listen. Thanks.

Awesome, inspiring!

Rating: 5/5

I have heard a number of recorded versions of the bible, But this one by far exceeds any of the others. It is absolutely awesome. The introduction to each book, the variety of voices, and the background music and effects, bring God's word to life. I have found it to be incredibly inspiring, and take my bible with me everywhere I go. I even put it on at night and fall asleep listening to those calming and soothing words. I will be giving The AudioBible to my whole family. Now, all you need to do, is make one in Spanish, for my Spanish speaking friends.

Life Giving

Rating: 5/5

I really just wanted to say thank you. The NIV Audio Bible is the best yet. I have not heard it all the way through but I have listened to John, 2 Corinthians, most of the Most of the New Testament. The gentleman who reads for Paul is incredible. Every time I listen to him it is like him sitting in my living room in an easy chair and having a conversation with me. He somehow tells it rather than reads it. I have the whole Zondervan NIV Bible on tape from some 20 or 25 years ago I loved it! Each character voice has become a sweet friend to me. I was so happy to see a CD version come out because I wanted something a little more durable because I now have a 6 year old so I bought the NIV Audio Bible on disc. After lunch today I found her listening to one of the discs and I never asked her to turn it on. Thank you Zondervan, you and all the people involved in this project have done such a supurb job on this one. The first time I heard it, I wept. It was so very sweet and live giving. Thank you.

Very nice work!

While the Scriptures were written down for our benefit, through most of history they were communicated to the people of God by being read aloud. The dramatized NIV powerfully captures many of these oral characteristics of Scripture in the context of contemporary society.

Drop the music?

Rating: 5/5

Some reviewers have complained about the music. There is no need to complain about the music because there are two versions available: with music (dramatized) or without music. I happen to like the music, it's usually soft piano and not distracting. This is a great CD to listen to in your car or on your mp3 player!

WOW!

I received the CD set for Christmas 2004. It is now May 2005 and I have heard (read) the entire bible 2 1/2 times so far and will have heard it up to 6 times before the year is out. I listen to nothing else in my car. The word has come to life more than it ever has. God bless you guys!!

Changed my life

My wife bought this for my birthday. I have been listening to it every single night before I go to sleep. I have read the Bible many times but listening to it is AMAZING! It has literally changed my life. I listen to it in sequential order over and over again and I always receive a new blessing. Now, today, a friend is going to buy the same set! God bless your work!

Outstanding

This is a wonderful selection. I can see many oportunities to use this set. My Girls in Action will love listening to the books of the bible a little each week as it comes to life for them. Along with my mother who's eyes are getting to bad to read for herself. The narration and different voices as well as the background music keeps you listening and excited to hear whats next. Wonderful Job.

Hear God's love story

I have found the NIV audio Bible a wonderful way to hear and share God's Word with my family, especially my children, who can't read the Bible at this time. My wife listens to the discs during her drive to work and finds it a great way to pass the time. I listen to them at night, which is like having God tell me a bedtime story about His love for mankind. Fantastic work by Zondervan!

Praise the Lord

I really have enjoyed my audio bible. One of the discs is a little crackly but other than that it is great. I am really proud to own the bible. Easy to use too. Best money you'll ever spend.

Get your senses involved

This is great! Close your eyes and listen or simply read along. Let the word come alive into your soul. I was so tired of not getting all the emotions involved in the scripture. This helps a lot. I recommend this for anyone. I rate it 4 out of 5 because of price.

Drop the music

This product is great. Listening to just one voice can be difficult, but with multiple voices it keeps my attention. My only frustration is that sometimes the music can be a distraction.
